

PARAS

Alternanza di colori, bianco e nero, ma anche soluzioni decorative più sofisticate realizzate con fiori, greche, fregi, che interpretano le suggestioni dello stile liberty e déco.

Un ritorno che è diventato una vera e propria moda con nuove soluzioni stilistiche e cromatiche. Come alternativa al tappeto, per valorizzare il box doccia, per rendere protagonista un'area di open space. Con Paris si realizzano delimitazioni degli spazi con una forza estetica senza precedenti.

Color variation, black and white, but even more sophisticated decorative solutions made with flowers, greek fret and friezes, which recall the suggestions of Liberty style.

A reference point that becomes real trend with new stylistic and chromatic solutions. As an alternative to enhance a corner, the shower stall or to define an open space area.

Together with Paris it is possible to delimit spaces with an unprecedented aesthetic force.
